Mirko Massa

Back-end developer.
Guspini, Sardegna, Italy

Resume

21 years old from Italy, self studying web development, backend focused. You can see my repositories on GitHub!

Technologies I work on currently:

- > Server-side javascript ecosystem (Node.js);
- > Typescript;
- > General knowledge of Vue.js (used in my personal website).

Extra knowledge:

- > school-level C / C++ (I can create a simple OpenGL application). I am comfortable with oop, types, and everything that a "low level" language has to offer;
- > Java (swing gui's and basic knowledge of most important libraries);
- > basic php knowledge;

Open to learn and able to relocate in any european country.
Looking for Junior web development positions. Also interested in startups and companies with proprietary software!
